Annual Report of the Student's Grievance and Redressal Committee Academic Year: 2022-2023

The Student Grievance and Redressal Cell in our college is actively working towards resolving student concerns, with a comprehensive awareness campaign conducted to inform students about its functions. A meeting for the Academic year of the Student Grievance and Redressal Committee was convened on 04-04-2023.

Regular checks of the box, conducted every 15 days, ensured timely processing. However, one grievance was found inside the box throughout the Academic year.

Recognizing the prevalent use of online platforms among students, the committee decided to establish a new email address for students to submit their grievances anonymously and conveniently. Despite these measures, the absence of grievances in the Academic year raised concerns. It was speculated that students might be unaware of the grievance submission process or may hesitate to express their concerns.

In response, the committee proposed that the Principal arrange additional face-to-face meetings, coordination sessions, and awareness programs to ensure students are well-informed about the Grievance and Redressal Cell and feel comfortable utilizing its services.
